- ~ High performance organic stretch cotton cover
- ~ Ecologically healthy components Oeko-Tex certified 100

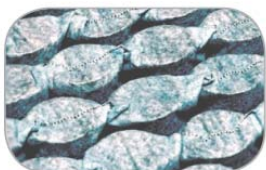

All-Natural Organic Stretch Cotton Cover

All-Natural Wool Liner For Breathability

All-Natural Latex Foam Cushioning

Independent, Flexible Carbon Steel Coils

We have taken the Riviera mattress and replaced the base coils with a simpler coil design to bring our customers a highly effective healthy sleep solution with exceptional value. The Euro Simple mattress begins with a base layer of individually encased Parallel coils for exceptional, shoulder and hip conformity lower back support. Made in Germany, these high carbon steel coils are center glued and nested in parallel rows. This innovative breathable design offers a slightly firmer feel while creating ergonomic support through increased surface contouring. This reduces pressure on the body, providing more comfort and promoting correct spinal alignment for restful, rejuvenating sleep.

The Parallel base coil is topped by a two inch layer of the finest pure 100% natural latex foam to provide all the cushioning you could want without forming the premature sags and depressions that thicker synthetic padding will. This latex cushioning provides exceptional resilience and ventilation. Each mattress is covered in the most comfortable organic stretch cotton lined with pre-felted merino wool. We quilt to 100% pure wool to provide the comfort of thermal insulation and moisture regulation. You will sleep better in a drier, more breathable sleeping environment.
