All-Natural Organic  
Stretch Cotton Cover

All-Natural Wool  
Liner For Breathability

All-Natural Latex  
Foam Cushioning

Independent, Flexible  
Carbon Steel Coils

## *A new level of conforming comfort and active support*

*The Riviera mattress begins with a base layer of individually encased interactive coils for exceptional, independent body support. Made in Germany, these high carbon steel coils are center glued and nested in a honeycombed pattern. These interactive coils feature alternating rows of higher and lower coils with different diameters and gauges. This innovative design creates highly ergonomic support through increased surface contouring. This reduces pressure on the body, providing more comfort and promoting correct spinal alignment for restful, rejuvenating sleep.*

*The interactive base coil is topped by a two inch layer of the finest pure 100% natural latex foam to provide all the cushioning you could want without forming the premature sags and depressions that thicker synthetic padding will. This latex cushioning provides exceptional resilience and ventilation. Each mattress is covered in the most comfortable organic stretch cotton lined with wool. We quilt to 100% pure wool to provide the comfort of thermal insulation and moisture regulation. You will sleep better in a drier, more breathable sleeping environment.*
